

# 2024-25 Biochemistry Curriculum Checklist

*(updated 03/06/2024)*

Biochemistry is an interdisciplinary major that is administered jointly by the Biology and Chemistry Departments. Students interested in the biochemistry major may consult Prof. Eric Folker (578 Higgins).

## Required Courses

### BIOLOGY

BIOL 2000 Molecules & Cells *(fall/spring)*

BIOL 2010 Ecology & Evolution *(fall/spring)* OR BIOL 3030

PHYSICS COURSES

PHYS 2100 Intro to Physics I with Lab (calc-based)

PHYS 2101 Intro to Physics II with Lab (calc-based)

**ADVANCED ELECTIVES** (*2 courses, minimum of 5 credits total*)

*Students planning to pursue a science career are urged to become involved in Undergraduate Research or take an Advanced Laboratory course.*
