2024-25 Biochemistry Curriculum Checklist

(updated 03/06/2024)

Biochemistry is an interdisciplinary major that is administered jointly by the Biology and Chemistry Departments. Students interested in the biochemistry major may consult Prof. Eric Folker (578 Higgins).

Required Courses

BIOLOGY

BIOL 2000 Molecules & Cells (fall/spring)

BIOL 2010 Ecology & Evolution (fall/spring) OR BIOL 3030

PHYSICS COURSES

PHYS 2100 Intro to Physics I with Lab (calc-based)

PHYS 2101 Intro to Physics II with Lab (calcbased)

ADVANCED ELECTIVES (2 courses, minimum of 5 credits total)

Students planning to pursue a science career are urged to become involved in Undergraduate Research or take an Advanced Laboratory course.
