

## **Hold RINU to make your RINU balance bigger!**

Each transaction includes 10% fees,  
50% from this fees going directly to holders .  
We believe that strong community is the key to successful project.  
For this our meme is build for the community only .

---

## **Our DogSwap**

The DogSwap will be a bridge between BSC and ERC 20 to buy memes without high fees .  
DogSwap will offer an loan platform base on NFT.  
people can come with NFT of them and take the value of this NFT to get a loan - half of value.  
From the other side , Our platform will give investors the opportunity to give the Loans with NFTs as a  
deposits for this loans .  
Each loan will be righten on smart contract with all the details: Expired of the loan , Value of the NFT  
during the Borrow time & present for each day .  
When the loan will be back + the present , The NFT will be back to his owner.

---

## **Pure community**

This token 100% belongs to the community, we have no team coins and no founders , The teams tokens  
are locked and will be burn.  
Our meme animation token includes future NFTs collections of crypto dogs,  
Holders will get the first buy options .
